### Lens position looking straight ahead

1. **High riding position**
   - OD: [Image]
   - OS: [Image]

2. **Lens rests on the lower eyelid**
   - OD: [Image]
   - OS: [Image]

3. **Lens slips under the lower lid marginal**
   - OD: [Image]
   - OS: [Image]

4. **Lens rests on the lower eyelid located below the limbus**
   - OD: [Image]
   - OS: [Image]

---

### Alignment dots position

1. **Alignment dots position**
   - OD: [Image]
   - OS: [Image]

2. **Alignment dots are in good position**
   - OD: [Image]
   - OS: [Image]

3. **Alignment dots are located under the pupil**
   - OD: [Image]
   - OS: [Image]

---

### Movement

3. **Movement**
   - OD: [Image]
   - OS: [Image]

---

### Movement change

4. **Movement change**
   - OD: [Image]
   - OS: [Image]

---

### Wettability

5. **Wettability**
   - OD: [Image]
   - OS: [Image]

---

### Fluorescein pattern

6. **Fluorescein pattern**
   - OD: [Image]
   - OS: [Image]

---

### Usual position of the head:

- Normal: [Image]
- Head up: [Image]
- Head down: [Image]

---

### Bottom of pupil / Lower Lid:
