A THINNER CONTACT LENS FOR ALL TYPES OF KERATOCONUS & OTHER IRREGULAR CORNEAS

ULTRA-THIN DESIGN DELIVERS ENHANCED PERIPHERAL FIT
KeraSoft Thin’s unique, thinner design increases lens flexibility, allowing it to drape better over the peripheral cornea. This directly reduces the need for peripheral changes on complex corneas such as post-graft and Nipple Cones. Compared to thicker soft lens designs, KeraSoft Thin is quicker and easier to fit, thus reducing chair time.

COMPLEX CASES BENEFIT FROM UNIQUE KERASOFT® THIN DESIGN
All your patients can benefit from the unique design of the KeraSoft Thin lens. Over twenty years of research and development has proven that fitting thin can provide optimal VA together with lifestyle enhancing comfort for even very complex corneas. Improved drapage reduces tear pooling under the lens which in turn stabilizes visual acuity.

THINNER LENSES DELIVER INCREASED OXYGEN TO THE CORNEA
Increased oxygen supply helps maintain a healthy cornea – particularly important for post-graft cases. Many cases of keratoconus require high minus powers which adds overall thickness to the final powered lens. KeraSoft Thin works to reduce this thickness and therefore improves wearing time.

EIGHT LENS FITTING SET
FIRST CHOICE LENS CALCULATOR

The MoRoCCo VA fitting method guides you to achieve optimal fit in minimum chair time using the eight Lens Fitting Set. Additionally, First Choice Lens can be calculated from a Topography Map – please refer to the Fitting Guide for more details.

MATERIAL

- EASY TO FIT
- OPTIMAL COMFORT
- HEALTHIER EYES

NO-RISK WARRANTY

KeraSoft Thin quarterly replacement silicone hydrogel lenses are available in single lens vials with an optional warranty that provides 2 exchanges per eye and full cancellation privileges (less shipping & handling) within 90 days from initial order. After successfully fitting a patient using the warranty, save by ordering non-warranted lenses in the quantity appropriate to the prescribed replacement schedule. Guaranteed Fit Program also available - ask for details!

SHIPPING, CREDIT & RETURN POLICIES

Standard production time for KeraSoft Thin lenses is 2-3 business days. Lenses will be shipped via Ground service unless another traceable method is requested. Warranted lenses being returned for exchange or credit must meet the following guidelines:

- be returned in their original, labeled vials
- be returned within the specified warranty period
- be accompanied by a completed Custom Soft Lens Request for Credit Form (provided with each order) specifying the exact reason for return and including the original invoice number and order date.

Non-warranted lenses are non-returnable/refundable. Shipping fees and proof of delivery on all returned product is the responsibility of the customer. Credit is not issued for shipping & handling charges.
